

GATE PREPARATION – EXPERT TALK

The ECE Society, BIT Sindri, organized an insightful Expert Talk on GATE Preparation on October 18, 2025. The session aimed to provide students with effective strategies, practical guidance, and motivational insights to help them prepare confidently for the GATE examination. The event was conducted by Mr. Prayanshu Singh, Teaching Assistant at IIT (BHU) and an alumnus of the ECE Department, BIT Sindri (Batch 2019–2023). His journey from BIT Sindri to IIT BHU served as an inspiration for all aspiring engineers. The session was coordinated under the guidance of the ECE Society faculty mentor.

Expert Talk – October 18, 2025

The session commenced at 10:00 am on the Google Meet platform, with enthusiastic participation from students preparing for GATE 2026 and beyond.

The primary objective of the Expert Talk was to equip participants with a structured approach to GATE preparation, focusing on key aspects such as strategic study planning, concept clarity, resource management, and problem-solving techniques.

Mr. Prayanshu Singh shared his personal experiences, discussed common challenges faced by GATE aspirants, and provided clear guidance on how to overcome them. The interactive Q&A segment allowed participants to clarify doubts on topics ranging from syllabus prioritization to time management.

Students also received valuable insights on tackling GATE ECE, understanding exam trends, and maintaining consistency throughout the preparation journey.

Key Highlights of the Session:

- (i) Detailed breakdown of important subjects and high-weightage topics for GATE ECE.**
- (ii) Tips for effective self-study, revision planning, and mock test analysis.**
- (iii) Motivational guidance to help students build confidence and remain disciplined.**

The GATE Preparation Expert Talk, organized by the ECE Society, proved to be highly beneficial for the participants. The event provided a strong foundation for aspirants to begin or refine their GATE preparation with clarity and purpose.

The Society extends its heartfelt gratitude to Mr. Prayanshu Singh for sharing his expertise, and to the faculty coordinator for continuous support in making the event a success.
